## Natural Grain Sweeteners: Malt Extracts & Malted Milk Powder

Malt Extracts and Malted Milk Powder are all-natural, flavorful non-diatstatic grain sweeteners that enhance the wholesome goodness of finished foods and beverages. Briess is the only vertically integrated malting company in North America, which means we make our malt extracts from our own malts for total quality control from beginning to end. Malt Extracts and Malted Milk Powder are produced in a fully automated, FPA audited plant with large capacity for consistent, high quality ingredients when you need them.
